SUMMARY

Senior Frontend Developer with 8+ years of experience designing and delivering scalable, high-performance web applications. Deep expertise in Angular and React/Next.js, with a focus on performance, architecture, and user experience. Consistently drives measurable impact through high-quality code, improving engagement and conversion.

EXPERIENCE

Frontend Developer June 2025 – Present
Interac Corp – Toronto, ON

- Played a major role in the development and launch of Konek, a Canadian digital wallet solution enabling secure, real-time payments and identity-based transactions
- Developed interactive demo applications to showcase Konek capabilities at live events and partner engagements, enabling stakeholders and financial institutions to explore real-world use cases
- Worked across multiple Angular codebases to execute a full rebranding initiative to deliver a consistent design system across customer-facing and internal applications

Frontend Developer Nov 2021 – June 2025
Goodfood Market Corp – Toronto, ON

- Developed and shipped web features with Next.js in a backend for frontend (BFF) pattern as part of a fast-paced, agile development team
- Optimized key web performance metrics such as reducing Largest Contentful Paint (LCP) and Cumulative Layout Shift (CLS) via code splitting, skeleton loaders, and platform version upgrades
- Achieved a 12% increase in customer acquisition through ownership of high-impact funnels such as upsell flow and referral programs while transitioning to a Contentful powered site
- Implemented a monorepo between the web and native mobile apps to reduce repeated code

Fullstack Developer May 2021 – Oct 2021
ARCX Inc – Toronto, ON

- Created a RESTful API with Node.js and Express.js, enabling real-time access to manufacturing execution system (MES) tool specifications
- Developed frontend SaaS solutions for MES dashboards on automobile production floors, increasing operator quality of life and efficiency
- Designed a database query interpreter to parse XML and map data to front-end components

Frontend Developer Jun 2019 – May 2021
BMO Financial Group – Toronto, ON

- Developed and optimized high-traffic web pages, driving lead generation and increasing average customer lifetime value (CLV) by 4%
- Collaborated with product owners to define project requirements and assess feasibility, ensuring alignment with business objectives
- Implemented A/B and multivariate testing strategies for personalized product recommendations
- Conducted regular code reviews and peer programming sessions, mentoring two junior developers

EDUCATION

Ryerson University May 2019
Bachelor of Computer Science (B.Sc.) – Toronto, ON

SKILLS

Libraries and Frameworks: HTML, CSS, Javascript, React, NextJS, Angular, TypeScript, Node.js, Redux, Tailwind
Development Tools: Git, Jest, Cypress, Webpack, New Relic, GraphQL, Yarn, npm
